EDUCATION

NIST University

B. Tech (CSE) - **7.40**

Nov 2021 - May 2025

Berhampur, Odisha

Takshashila Residential School

Higher Secondary (CBSE) - **71.4%**

Apr 2019 - Apr 2021

Berhampur, Odisha

TECHNICAL SKILLS

Programming: Python, Apex, Triggers, ISML

Frontend Development: HTML, CSS, JavaScript, Responsive UI

Databases: MySQL, SOQL

Libraries & Frameworks: Salesforce Lightning Framework, jQuery, React

Salesforce: Lightning Web Components (LWC), Flows, Visualforce, Aura Components, Administration

Platforms & Tools: Postman, Excel, Git, Github, Salesforce Org, Workbench

PROJECTS

QR - Based Authentication System using Blockchain | Solidity, React

- Built a responsive interface displaying real-time transaction updates and implemented on-chain identity verification.
- Developed a decentralized authentication system integrating Ethereum smart contracts with QR-based verification.

API - Based Recipe Recommendation App | Salesforce, LWC, Rest API

- Developed a LWC that fetches random Recipes using external REST APIs through Apex Callout.
- Implemented Apex Controller to handle API callouts and process response within salesforce environment.
- Built an Intuitive LWC Component to render the fetched Recipes data in real-time.

EXPERIENCE

Spikewell

Jan 2025 – Feb 2026

SDE Intern

Bhubaneswar, Odisha

- Developed and deployed a Salesforce Lightning Web Application for call center agents to use for order management, enabling them to place orders, update customer data, and renew service plans within Salesforce.
- Optimized User workflows of the Lightning Application by redesigning UI interactions and reducing process steps from ~30 clicks to ~20 clicks (~30% reduction), improving operational efficiency.
- Wrote optimized SQL queries for data extraction, validation, and reporting. Implemented SOQL-based data retrieval and reusable LWCs, improving backend performance and supporting scalable feature enhancements.
- Migrated legacy Workflow Rules to Salesforce Flows, optimizing automation logic to improve efficiency and scalability.

TPSODL

May 2024 - July 2024

Cybersecurity Summer Intern

Berhampur, Odisha

- Assisted in vulnerability assessments and security analysis of internal infrastructure.
- Conducted network audits and supported configuration review processes.
- Contributed to documentation of security protocols and compliance reports.

EXTRACURRICULAR

Club Excel

Aug 2022 – May 2025

Core Member

- Organized Multiple workshops on technology and design, reaching 500+ students.
- Increased membership by ~30% through engaging activities and workshops.
- Helped in developing a peer mentorship program connecting freshers to senior students for technical guidance.
